Genesis – In the beginning (October 1998)

“This was our very first recording that was only done as a favor to family and friends who kept insisting that we should do a recording. We had no intentions on a singing ministry at all, but God had better plans. This recording found its way into the hands of some concert promoters who called and asked us to open for The Kingsmen at a concert they were hosting in Syracuse, Indiana in February 1999. After this, there were numerous inquiries about booking us to come and sing at churches in the area.”
